

Product datasheet

Gjøco Terrasserens

Gjøco Terrasserens is a strong, alkaline cleaning agent for removing old wood oil, dirt and pollution. Refreshes the wood color on patio tables and garden furniture. Used on terraces and garden furniture. Do not use on precious wood. Avoid Gjøco Terrasserens coming into contact with plants, painted surfaces, aluminum and glass. Any spillage is flushed away with clean water.

Revised 10.01.2024

Symbols

Ingredients

Aqua
Potassium hydroxide
Sodium ethylhexyliminodipropionate
Sodium acrylate

Technical data

Type:	Alkaline cleaning agent
Specific gravity:	1,07 kg/l
pH value:	13

Usage data

Application method:	Brush or suitable sprayer. Rinse off with a garden hose.
Recommended spreading rate:	Approx. 5-8 m ² /litre, depending on previous treatment and fouling.
Mixing ratio:	Use undiluted.
Minimum application temperature:	>0 °C. Best effect at 20 - 25 °C. Should not be applied in direct sunshine.

Directions for use

The wood to be treated is well moistened with water before applying Gjøco Terrasserens.
Gjøco Terrasserens must be used undiluted. Apply with a brush or spray. After 5-10 minutes of working time, scrub clean with a stiff brush. Rinse well with clean water. Feel free to use a garden hose. High-pressure washers can be used but avoid damaging the wooden surface. Repeat the treatment if necessary. The wood must be completely dry before further treatment with wood oil, terrace oil or terrace stain.

Storage	Screw the top back on when storing to prevent spillage and drying out. The product must be transported and stored upright, dry and frost-free.
Disposal of waste	The product must not be emptied into sewers or into nature but delivered to an environmental station. 
Other information	Contains lye (Potassium hydroxide). The liquid is corrosive. Do not swallow. Keep locked up and out of the reach of children. Wear gloves and safety glasses. Avoid splashing in the eyes and on the skin as the liquid is corrosive. In the event of splashes in the eyes, immediately rinse thoroughly with large amounts of clean water. In the event of an accident or unwellness, immediate medical treatment is necessary. See also safety data sheet. Packaging size: 4 litres.
Safety	See separate safety data sheet. Read the information on the packaging.

The information on this data sheet is based on laboratory tests and practical experience. Our products are considered semi-finished products and as the conditions under which the products are used are often beyond our control, we cannot guarantee anything other than the product's quality. The products are delivered in accordance with our general terms and conditions for sales, delivery and service, unless otherwise agreed in writing. We reserve the right to make minor product changes and to change the specified data without prior notice. This data sheet replaces previous editions.
