

Product data sheet

Gjøco Gulv- og panelrens

Gjøco Gulv- og panelrens is intended for cleaning floors before treatment. The product is a concentrate that should be diluted with water. For indoor use on all types of floors before painting or varnishing. Effectively removes floor wax, polish, grease, soap residue, and other contaminants.

Revised 23.10.2025

Symbols

Composition Information

Anionic and non-ionic surfactants 5–15%

Ingredients

Aqua
Sodium laureth sulfate
PEG-8 Propylheptyl ether

Technical data

Type:	Synthetic cleaning agent
Specific gravity:	1.0 kg/l

Usage data

Application Method:	Ejector connected to a garden hose or low-pressure sprayer/pump sprayer, alternatively a high-pressure washer
Recommended Consumption:	Approximately 1 liter of cleaning solution per 15 m ²
Dilution:	Light cleaning: approx. 10 ml to 5 liters of water Normal cleaning: approx. 15 ml to 5 liters of water Heavy cleaning: approx. 20 ml to 5 liters of water

Usage Instructions

Clean with a lint-free cloth, mop, or microfiber cloth. Wipe with clean water. For heavily soiled surfaces, the treatment may be repeated. Allow to dry thoroughly before further treatment. Cleaning should be done before any sanding to avoid wax, dirt, and soap residues from settling in joints and causing peeling of lacquer/paint. This also applies to new, factory-lacquered parquet.

Storage

Tightly screw the lid shut when storing to prevent spillage and drying out. The product should be transported and stored standing, in a dry and frost-free environment.

Disposal of waste The product should not be emptied into sewage drains or nature but should be delivered to a recycling station. Empty, clean, and dry plastic packaging can be delivered as plastic waste.

Environmental Labeling

Gjøco Gulv- og panelrens is approved by Miljømerking Norge and meets the requirements for the Swan environmental label.

Swan-labeled Cleaning Products:

- Have passed strict quality tests
- Contain minimal chemicals that could harm health and the environment
- Long-lasting in use

Other information

Packaging sizes: 1 liter.

Safety

See separate safety data sheet. Read the information on the packaging.

The information on this data sheet is based on laboratory tests and practical experience. Our products are considered semi-finished products and as the conditions under which the products are used are often beyond our control, we cannot guarantee anything other than the product's quality. The products are delivered in accordance with our general terms and conditions for sales, delivery and service, unless otherwise agreed in writing. We reserve the right to make minor product changes and to change the specified data without prior notice. This data sheet replaces previous editions.
