

FDV – Management, Operation and Maintenance

Gjøco Møbel- & kjøkkenbenkolje

Gjøco Møbel- & kjøkkenbenkolje is a special oil for indoor use on wooden surfaces such as kitchen countertops, work surfaces, and wooden furniture in kitchens, bathrooms, and living rooms. Gjøco Møbel- & kjøkkenbenkolje provides good protection against moisture, dirt, and grease. It can be tinted in various colors. It contains no toxic substances, making it suitable for use on surfaces that will be in direct contact with food.

Revised 09.04.2026

Usage Instructions	Substrate:	Ensure the surface is clean and dry, with a minimum temperature of +15°C
	Application Method:	Brush or sponge.
	Thinner:	Water. The lacquer generally does not require thinning.
	Storage:	Store and transport upright, dry, frost-free, and out of reach of children.
	Transport:	Not classified as hazardous goods under applicable regulations.
	Indoor Environment/Emissions	The product emits low emissions.

Technical and Safety Data A technical data sheet and safety data sheet (SDS / HSE data sheet) have been prepared for the product. See www.gjoco.no. VOC: The EU limit value for the product (category A/i): 140 g/l (2010). The product contains <80 g/l VOC.

Maintenance	Cleaning:	For cleaning prior to repainting, it is recommended to use an alkaline cleaning agent such as Gjøco Interiørvask or Husvask. Follow the product instructions. Newly painted surfaces should not be washed until after 4 weeks. Use microfiber cloths with clean water or mild soapy water. The cleaning water temperature should not exceed +40°C, and the pH should not exceed 9. The use of abrasive cleaning agents may damage the surface. Cleaning should be carried out in a way that avoids streaks and performed with discretion. The paint film wears faster under heavy cleaning loads.
	Intervals:	The paint film is affected by mechanical impact and wears according to the level of stress. Maintenance intervals will therefore vary based on need.

Waste Management

The product is classified as hazardous waste and must be delivered to an approved hazardous waste disposal facility. The product must not be poured into the environment, sewage, or water. Empty, clean, and dry plastic packaging without handles can be disposed of as plastic waste. Refer to applicable regulations for hazardous waste.

Repairs/Damage

Repairs and damages should be addressed using the same type of product. If other products are used, it must be documented that they are of the same type previously applied. Repairs should be carried out in a way that does not deviate from previous treatments. For repainting or color changes, it is recommended to use the same product as previously applied. Contact your dealer or a painting company for assistance.

Eco-labeling

BREEAM-NOR v6.1:
– HEA02: The product complies with VOC content requirements in accordance with EU Directive 2004/42/EC and emission requirements tested in accordance with the ISO 16000 and ISO 11890 series.
– MAT02: Contains no substances listed under REACH Article 59(10) – the Candidate List and the Norwegian A20 list. See also the product safety data sheet.

The information provided in this data sheet is based on laboratory tests and practical experience. As the conditions under which the products are used are often beyond our control, we cannot guarantee anything other than the quality of the product itself. The products are supplied in accordance with our general terms and conditions of sale, delivery, and service, unless otherwise agreed in writing. We reserve the right to change the stated data without prior notice. Paint may be regarded as a semi-finished product, and the final result depends on factors such as surface preparation, temperature, application method, type of substrate, etc.
