

Product datasheet

Gjøco AquaStop C

Gjøco AquaStop C is a water-thinnable impregnation based on nanotechnology that provides a water-repellent surface on mineral substrates such as masonry, plaster, concrete and stone both indoors and outdoors. Provides extra protection against black mold, algae, moisture and frost cracking.

Gjøco AquaStop C is applied directly to substrates such as paving stones, plastered leca, plastered foundations, free-standing walls, bricks, concrete/brick stairs, ceramic tiles, roof tiles and joints.

Technical data

Type:	Water-thinnable unpigmented impregnation
Color:	Colorless when dry, whitish when wet.
Specific gravity:	Ca. 1 kg/l
Application method:	Coarse brush, roller, or spray.
Thinner / cleaning agent:	Water
Recommended spreading rate:	8-10 m ² /litre, depending on the substrate.
Drying time (23 °C, 50 % R.H.):	
Dust dry:	Ca. 24 hour
Minimum application temperature:	+5 °C. Low temperatures result in longer drying time.

Pretreatment

Loose masonry and plaster should be brushed/scraped. The substrate must be clean and dry before using AquaStop C.

Directions for use

Fortynning av produktet er ikke nødvendig. Påføringstemperatur i luft og underlag skal være over 5 °C. Anbefales ikke til bruk på ikke-sugende underlag. Kan lagres i original uåpnet emballasje opp til 24 måneder etter produksjonsdato. Påføres med rull, grov pensel eller sprøyte. På svært sugende underlag gjentas behandlingen innen 3 timer. Kan tilsettes i fugemasser og betong hvor 1/3 av vannet erstattes med AquaStop C. Det anbefales å teste et mindre areal før påføringen utføres.

Storage

Seal the lid tightly when storing paint to prevent spillage and drying. The paint must be transported and stored upright, dry and frost-free.

Disposal of waste

The product should not be emptied into sewers or into the environment, but delivered to an approved hazardous waste collection point. Empty, clean and dry packaging should be delivered to an approved collection point.

Other information

Shake the bottle well before use.

Package sizes: 1 liter

Safety

See separate safety data sheet. Read the information on the packaging.

The information on this data sheet is based on laboratory tests and practical experience. Our products are considered semi-finished products and as the conditions under which the products are used are often beyond our control, we cannot guarantee anything other than the product's quality. The products are delivered in accordance with our general terms and conditions for sales, delivery and service, unless otherwise agreed in writing. We reserve the right to make minor product changes and to change the specified data without prior notice. This data sheet replaces previous editions.
